GULFSTREAM ACQUISITION 1 CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017 AND 2016
(Expressed in Canadian dollars)

1. NATURE OF BUSINESS

Gulfstream Acquisition 1 Corp. (the "Company") was incorporated on June 8, 2012 under the Ontario Business Corporations Act. The Company is a Capital Pool Company ("CPC") as defined in the TSX Venture Exchange (the "Exchange") Policy 2.4 and accordingly, its planned principal activity is to use its capital to investigate and acquire a business or group of assets (the "Qualifying Transaction"). The address of the Company's principal place of business and registered office is C/O McMillan LLP, 181 Bay Street, Suite 4400, Toronto, Ontario, M5J 2T3 ("McMillan").

2. BASIS OF PREPARATION AND CONTINUING OPERATIONS

Statement of Compliance

These unaudited interim condensed financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited interim condensed financial statements were prepared using the same accounting policies and methods as those used in the Company's audited financial statements for the period January 1, 2016 to December 31, 2016. These interim financial statements are in compliance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Accordingly certain information and disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted.

Approval of the Financial Statements

The financial statements of the Company for the three and six months ended June 30, 2017 were reviewed by the Audit Committee and approved and authorized for issuance by the Board of Directors on August 28, 2017.

Basis of Measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value as explained in the accounting policies set out in Note 3.

The functional and presentation currency of the Company is the Canadian dollar.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note

Going Concern

As at June 30, 2017, the Company had no business operations and its only significant asset was cash. The Company reported a net loss of \$16,286 for the period ended June 30, 2017 and has accumulated losses of \$262,281 since inception.

The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition of, or participation in, a business subject to receipt of shareholder approval, if required, and acceptance by regulatory authorities. Where an acquisition or participation is warranted (the "Qualifying Transaction"), additional funding may be required. The ability of the Company to fund its potential future operations and commitments is dependent upon the ability of the Company to identify, evaluate and negotiate an acquisition, participate in or invest in an interest in a Qualifying Transaction, and obtain additional financing. These factors create a material uncertainty that raises significant doubt upon the Company's ability to continue as a going concern.

NOTES TO FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017 AND 2016
(Expressed in Canadian dollars)

2. BASIS OF PREPARATION AND CONTINUING OPERATIONS (continued)

There is no assurance that the Company will identify a business or asset that warrants acquisition or participation within twenty-four months from the date the Company's shares are listed for trading, at which time the Exchange may suspend or de-list the Company's shares from trading.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

a) Significant Accounting Estimates and Judgements

The preparation of these financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the periods reported. Significant areas requiring the use of management estimates include the determination of share-based compensation and the recognition of deferred income tax assets. Actual results could differ from these estimates.

Critical accounting judgements are accounting policies that have been identified as being complex or involving subjective or assessments with a significant risk of material adjustment in the next year. Significant areas requiring critical accounting judgements include the Company's ability to carry on as a going concern.

b) Income Taxes

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting year the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

c) Loss Per Share

Basic loss per share is computed by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding during the period. The Company applies the treasury stock method in calculating diluted loss per share. Diluted loss per share excludes all dilutive potential common shares if their effect is anti-dilutive.

d) Share Issue Costs

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are charged to operations.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Share-based Compensation

The stock option plan allows Company employees and consultants to acquire shares of the Company. The fair value of equity settled stock options awarded to employees defined under IFRS 2 Share-based payments (i.e. employees for legal and tax purpose, directors and certain consultants), determined as of the date of grant, and awarded to non-employees defined under IFRS 2, as of the date of delivery of service, is recognized as share-based compensation expense, included in general and administrative expenses in the statement of comprehensive loss, over the vesting period of the stock options based on the estimated number of options expected to vest, with a corresponding increase to equity.

f) Financial Instruments

All financial assets are initially recorded at fair value and classified into one of four categories: held to maturity, available for sale, loans and receivable or at fair value through profit or loss ("FVTPL"). All financial liabilities are initially recorded at fair value and classified as either FVTPL or other financial liabilities. Financial instruments comprise of cash and accounts payable. At initial recognition management has classified financial assets and liabilities as follows:

Financial assets - The Company has classified its cash at FVTPL. A financial instrument is classified at FVTPL if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at FVTPL if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's documented risk management or investment strategy. Financial instruments at FVTPL are measured at fair value and changes therein are recognized in income.

Financial liabilities - The Company has classified its accounts payable as other financial liabilities. Accounts payable are recognized at the amount required to be paid less, when material, a discount to reduce the payable to fair value. The Company derecognizes a financial liability when it its contractual obligations are discharged, cancelled or expire.

g) Changes in Accounting Policies

There were no new or revised accounting standards scheduled for mandatory adoption on January 1, 2017, and thus no new standards were adopted.

h) New Accounting Standards Issued But Not Yet Effective

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for future accounting periods. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below. The Company intends to adopt these standards when they become effective.

The following standard will be effective for annual periods beginning on or after January 1, 2018:

IFRS 15 Revenue from Contracts with Customers – In May 2014, the IASB issued IFRS 15 – Revenue from Contracts with Customers ("IFRS 15") which supersedes IAS 11 – Construction Contracts, IAS 18 – Revenue, IFRIC 13 – Customer Loyalty Programmes, IFRIC 15 – Agreements for the Construction of Real Estate, IFRIC 18 – Transfers of Assets from Customers, and SIC 31 – Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a comprehensive five-step framework for the timing and measurement of revenue recognition.

IFRS 9 Financial Instruments – In November 2009, as part of the IASB project to replace IAS 39 Financial Instruments: Recognition and Measurement, the IASB issued the first phase of IFRS 9 Financial Instruments, that introduces new requirements for the classification and measurement of financial assets. The standard was revised in October 2010 to include requirements regarding classification and measurement of financial liabilities. In November 2013 the standard was revised to add the new general hedge accounting requirements. The standard was finalized in July 2014 and was revised to add a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income (FVOTCI) category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics test.

IFRS 16 Leases - IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions.

IFRS 2 Shared-Based Payments - In June 2016 the Board issued the final amendments to IFRS 2 which amended (a) the effects that vesting conditions have on the measurement of a cash-settled share-based payment; (b) the accounting for modification to the terms of a share-based payment that changes the classification of the transaction from cash-settled to equity settled; and (c) classification of share-based payment transactions with net settlement features.

The extent of the impact of adoption of these standards and interpretations on the financial statements of the Company has not been determined.
